#### LOVE AND FOLLY.

BY JOHN Q. BAXEY.

Could you have, is mortal blind; The reason it were hard to find. Unless, indeed, we may suppose The fable of La Fontaine shows, How the mistaking dame abut.

"Tis said that on a certain day, A Lovam and Folly were at play, That the former was the wiser, And the latter, the more gay. Until, so high the quarrel rose,

Love, little used to warlike arts (Save with his famous bow and darts), Although he fought with all his might, Was beaten in the field of battle.

Richard Hazleton, Waterton street, London, Eng.

SIN—Hearing that you had a new musical instrument that is fast increasing in the number of its inventors, I wrote to order a dozen, I sent you one, to be ready for the glass window of my music-store on June 8, 1883.

Money ready when ordered. Respectfully, G. W. MASON.

"I must work hard," thought Richard, "until then, and it may be after that fortune will smile upon me." So all day and most of the long nights found him in his workshop, working at his new invention.

We will linger no longer on the intervening months, but at the end his work was completed, and he gained a just compensation for his toils.

Many and more valuable were the orders which followed, until at last the rude little music-box has found a resting place in many of the most wealthy families in the city that is the capital of this mighty nation.

Five years later we find our young man of nineteen living in a cosy little cottage skirting the outside of the city. Away from the noise and clamor of the busy heart of the pride of England, busy toward one, but charitably toward all, serves his daily motto.

No more do we find him seated in his dark little workshop of evenings, but at home with the queen of the cottage—his mother. Ever ready to encourage those who are trying to earn a livelihood with their brain and hand, "Malice toward none, but charity for all," serves as his daily motto.

Years roll on, and his friends Clare and Harriet still live close to his home, the loving companions of two of the most noted mermaids.

While we leave Richard, in the prime of his youth, ever ready to bear his fellow-man's burden, and thus fulfill the holy commandment, which is, "Bear ye one another's burdens, and thus fulfill the law of Christ."

The Novel Writer's Home.

Augusta Evans Wilson, who immediately after the war acquired considerable fame and a liberal fortune by a series of novels, of which the most popular was "St. Elmo," whose hero belonged to the "Guy Livingston-Rochester type," muscular, mysterious, bad-tempered brute, whom the young women of that period elected to admire. After Miss Evans' marriage to Dr. Wilson she ceased, at his urgent request, to write; but now, after a silence of some twelve or fourteen years, a new novel by her is announced as in press. Apropos of her reappearance in the literary world and among a generation of new Southern authors, whose manners and methods are far removed from hers, it is not without interest to call them friends. What else can I call them? Cheerful boys of my own age, who do not have to work as I do, but who are trying to screen from their minds the idea of it. Maybe they would scoff at the thought of being friends, but it matters not to me, if I can only keep myself and mother from starvation.

These are a few thoughts that hasten the coming of the new year.

## POLITICAL AND MISCELLANEOUS.

It is worthy of remark, as a significant sign of the times, that there are already nearly 700 republican clubs enrolled in the national organization perfected at New York a few weeks ago.

Tom Scott has over a hundred thousand dollars a year for his income. The soldiers that defended Scott's property got thirteen dollars a month.

—Exchange.

Capital and labor are twin sisters, and to oppress the one and favor the other, is cruel injustice. Labor must be protected, or the nation must perish.

—Exchange.

The national democratic committee will decide Feb. 23d, whether the democratic convention will be held in New York or Chicago. The president's friends want it held in the east.

The president does not perceive the effect of his own arguments, or even the meaning of his own words. His statement that the question of free trade is irrelevant is astounding and preposterous. —London Daily News.

The pretense of southern democrats that the colored men of the south are permitted freely to vote if they so desire, is a cruel sham and hollow mockery, and will now be officially exposed. —Cleveland Leader.

Meanwhile it will be well to remember that Mr. Lawler's confirmation has been secured by the votes of republican senators in whom the republican party has the least confidence, and who are in no sense representative of republicans.

Utah wool growers, representing over a million sheep, have adopted strong resolutions protesting against any reduction of the tariff on that commodity. The ground swell is setting in strongly against the Cleveland policy. —Blade.

The president declines cautiously to dub himself a free trader; but he takes up a free-trade position without disguise. He and the leaders of the democratic party have taken up again the old free trade policy of the South Carolina politicians. —London Review.

Senator Brown, of Georgia, energetically favors the entire abolition of internal revenue taxation, as a mode of reducing the revenue, instead of destroying the protective features of the tariff. The South is evidently no longer soldly for free trade. —Blade.

We do not believe in blacklisting, but we make an exception in the case of Senators Stewart and Stanford, who voted for Lamar. The republican gates to honor should forever be closed on them hereafter. —Pittsburgh Com. Gaz.

The business of the country, in averages of legitimate trade, increased 12 percent last year. This is a fact which is ignored by the visionary theorists who are attempting to destroy our industrial interests in order that the importers may grow enormously wealthy. —Blade.

The estimated loss of sheep in half a dozen Texas counties by the blizzard is 20,000. Warner weather prevails in the northwest, and Brown's Valley branch of the Manitoba railroad has been opened, and the fuel famine along the line, which caused great suffering has been broken. —Det. News.

If the republicans who sent Senators Stewart and Stanford to Washington are not base counterfeits, they will let the present term of each of those distinguished ases be his last in the United States senate. Their votes for Lamar's confirmation proves them unworthy of further confidence. —Detroit Tribune.

There are two brands of democracy, one represented by Judge Thurman, of Ohio, who has been retained to prosecute the democratic tally-sheet forgers at Columbus, and the other by Senator Voorhees, of Indiana, who will defend the democratic tally-sheet forgers at Indianapolis. It must be owned, however, that the Thurman democracy is hopelessly in the minority. —Philadelphia Press.

Sen. Sherman's great tariff speech in reply to the president's message is to be used as a campaign document. The demands for it are unprecedented. Up to this time, congressmen alone have ordered 160,000 copies at their own expense, and an association of prominent republicans has arranged to buy and circulate 1,000,000 copies for general distribution. This will give Mr. Sherman's speech a greater circulation than any utterance of like import on the floor of congress has ever had. —Blade.

## WASHINGTON LETTER

[From Our Regular Correspondent.]

WASHINGTON, Jan. 13, '88.

The big speech of the session thus far was made by Senator Hale, of Maine, on Wednesday. He took up the history of this administration on the Civil Service Reform Issue. While the Senator was dispassionate and candid, he presented a most wonderful combination of facts that reflected anything but credit upon the claims of this administration. I will not undertake a synopsis of his wonderful speech, but advise the reader to get a copy of it.

Mr. Mills, of Texas, the new chairman of the Ways and Means committee, said today that he would have his tariff bill fully perfected and ready to report to the House within two weeks.

Scores of members are preparing speeches for the occasion, and the country will have an abundance of literature on the subject this session.

Very little has been done in the House this week, although the House committees have been very busy. The main purpose was to get the various committees into working order. Even the president's message that was sent to the House five weeks ago, was not referred to its appropriate committee until yesterday, when it went to the committee on Ways and Means by a motion of its own chairman. It is said that a like incident never occurred before in the history of this government.

The "urgent" deficiency bill has been favorably reported, and of course will be speedily passed, which will enable the government to pay up a portion of the indebtedness contracted beyond appropriations by this reform and economical administration. The boom is on the home stretch, now, and will hit severely the sham pretenses of economy so prominent in the foreground of the last congress. Democratic foresight doesn't reach very far into the future. The great object of the party seems to be to serve a temporary purpose, and patch up the neglect or evil effects of their legislation when necessity compels them to action.

Thousands of honest and needy claimants, whose accounts have been fully adjudicated, have thus far been kept out of their just dues for a whole year to bolster up the nefarious democratic party.

The town of Frederic seems to be getting "to the front" in pretty good shape, especially in the matter of railroads. It took the citizens of that place about half an hour to furnish the right of way for the Eddy & Fisher road, and last week it took only 3 hours to raise the necessary funds to purchase right of way and deposit grounds for Ward's road. Said deposit grounds included the purchase and removal of six stores and dwellings.

That town has been considered rather slow, but it looks as though when there were any railroads laying around loose to capture, that "the boys" get around pretty sudden and not much fuss about it either. Such conduct persevered in will eventually build up Frederic.

The Leap Year party given at the Opera House last Thursday evening, by the ladies of Grayling, was attended by about forty couples, and was one of the pleasantest and most enjoyable parties that we have ever attended. Dancing and conversation were engaged in until about eleven o'clock, when supper was announced, and the ladies then escorted their partners to the Grayling House where a sumptuous repast was spread for all except one luckless couple, who, for getting on the way, had to assist in waiting on the others. On the disappearance of the waiters, who were all that could be had, the merry party returned to the hall when dancing was resumed and nimble feet kept time to resounding music until the "wee sma' hours" in the morning, when all departed for their homes, well pleased with their evening's amusement.

"Peterson"

For February is among the earliest of the magazines for the month, and fitly follows the lead of the brilliant January number. The steel-engraving is especially fine, and "Making Robin," the second of the full-page wood-illustrations, is one of those delicate pictures of children for which "Peterson" is noted. The fashion-plate and work-table designs are up to the highest standard of excellence, and the literary portion of the magazine deserves high praise. "Baby Greyford," the serial by Miss McClelland, promises to be the best she has yet produced; and the other continuing story, "The Kennardis," by the author of "The Second Life," is one of that popular writer's most dramatic and finished efforts. The short stories and poems are all good—as usual, quite equal to those of the best literary magazines. If you are not already a subscriber, by all means take a year. Terms: Two dollars a year, with great reductions to clubs.
